Portfolio

LeetCode

Professional Summary

Full Stack Developer with hands-on experience building responsive and scalable web applications using the MERN stack, Java Spring Boot, and Frappe Framework. Experienced in React.js, Node.js, Express.js, Java, Python, Spring Boot, Frappe ORM, REST APIs, JWT authentication, MongoDB, MySQL, and MariaDB. Experienced in developing custom Frappe applications using DocTypes, Client Scripts, Controllers, Hooks, Reports, Workflows, and Patches.

Technical Skills

Languages: C, C++, Java, JavaScript, Python, TypeScript

Frameworks: React.js, Spring Boot, Spring Security, Frappe Framework, Tailwind CSS

Backend: Node.js, Express.js, REST APIs, JWT, Socket.IO

Frontend: HTML5, CSS3, Redux

Databases: MongoDB, MySQL, MariaDB

Tools/Deployment: Git, GitHub, Linux, Postman, Vercel, Render, Cloudinary, MongoDB Atlas

Core CS: Data Structures and Algorithms, OOP, DBMS, Operating Systems, Computer Networks

Projects

RideFleet — Frappe + Python + MariaDB

GitHub

- Built a vehicle rental and ride-booking application using Frappe Framework, Python, MariaDB, DocTypes, Link Fields, Child Tables, and Frappe ORM.
- Implemented Client Scripts, Controllers, Web Forms, Web Views with Jinja, REST APIs, Patches, Permissions, Workflows, Reports, and Frappe Charts.

CampusConnect — MERN Full-Stack

Live | GitHub

- Developed a developer networking platform using React.js, Node.js, Express.js, and MongoDB with JWT authentication, protected routes, bcrypt password security, profiles, posts, comments, and user permissions.
- Integrated GitHub and Cloudinary APIs and deployed the frontend on Vercel and backend on Render with MongoDB Atlas.

Relay — Real-Time Chat Application

Live | GitHub

- Built a full-stack real-time messaging application using React.js, Node.js, Express.js, MongoDB, and Socket.IO with JWT authentication and protected routes.
- Implemented one-to-one messaging, online/offline presence, typing indicators, delivered/read receipts, message edit/delete/reply, user search, and media sharing with Cloudinary.
- Deployed the frontend on Vercel and backend on Render with MongoDB Atlas for production database hosting.

Organic Mart — Spring Boot + React

Live | GitHub

- Developed a full-stack e-commerce platform using React.js, Spring Boot, Spring Security, JWT, and MySQL with separate user and admin functionality.
- Implemented role-based authorization, REST APIs, product, cart and order management, Razorpay payments, admin dashboard, and JUnit tests.

Training

Excellence Technology

Java Full Stack Development Training

Jan 2026 – Jul 2026

Mohali, Punjab

Achievements

- Solved 600+ Data Structures and Algorithms problems across LeetCode and GeeksForGeeks.
- Completed IIT Kanpur Student Development Program focused on C++ and Data Structures.

Education

Gulzar Group of Institutes

B.Tech in Information Technology — CGPA: 7.10

2022 – 2026

Punjab, India
